

HOW TO PREPARE YOUR KITCHEN FOR A DEMO

Checklist

REMOVE ALL ITEMS FROM YOUR KITCHEN

Before the demolition process starts, you should remove all items from your kitchen, including dishes, appliances, and other items that are not nailed down.

DISCONNECT ALL APPLIANCES

You should also disconnect all appliances, such as your refrigerator, stove, and dishwasher, and remove them from the kitchen area.

COVER OR REMOVE FURNITURE

If you have any furniture in your kitchen, such as a table or chairs, you should cover them with plastic or remove them from the room to protect them from dust and debris.

PROTECT YOUR FLOORING

Your flooring can easily be damaged during the demolition process, so you should cover it with a protective covering, such as a drop cloth or rosin paper.

SEAL OFF THE KITCHEN AREA

To prevent dust and debris from spreading to other parts of your home, you should seal off the kitchen area with plastic sheeting.

TURN OFF ALL UTILITIES

You should turn off all utilities, including gas, electricity, and water, before the demolition process starts.

HIRE A PROFESSIONAL CONTRACTOR

It's important to hire a professional contractor for your kitchen remodeling project. They will have the necessary tools and experience to safely and efficiently complete the demolition process.
